

MAXIM®

2-Slice Toaster

Use and Care Guide

MAXT2W

READ AND SAVE THESE INSTRUCTIONS

WARNING: A risk of fire and electrical shock exists in all electrical appliances and may cause personal injury or death. Please follow all safety instructions.

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed, including the following:

- Read all instructions before using Toaster.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plug, or Toaster in water or other liquid. See instructions for cleaning.
- This appliance is not for use by children.
- Close supervision is necessary when this appliance is used near children.
- Unplug from outlet when not in use. Unplug and allow to cool before cleaning.
- Do not operate any damaged appliance. Do not operate with a damaged cord or plug, or after the appliance malfunctions, or has been dropped or damaged in any manner. Contact Salton Consumer Service for return authorization, examination, repair or adjustment.
- The use of accessory attachments not recommended by Salton, Inc may cause injuries.
- Do not use outdoors or while standing in a damp area.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Do not use Toaster unattended.
- Oversized foods, metal foil packages, or metal utensils must not be inserted in this Toaster as they may involve a risk of fire or electric shock. Remove all protective wrappings prior to placing in Toaster.
- Avoid using items with “runny” frostings, fillings, icings or cheese. This includes pre-buttered foods.

IMPORTANT SAFEGUARDS *(Con't.)*

- Use Toaster in an open area with 4-6 inches air space above and on all sides for air circulation. A fire may occur if Toaster is covered or touching flammable material, including curtains, draperies, towels, walls and toaster covers, etc, while in operation.
- Do not defrost or toast convenience foods under any cabinet or overhang.
- Do not force food into bread slots.
- Do not attempt to dislodge food when Toaster is plugged into an outlet. Should it be necessary to dislodge food, unplug the Toaster and use only a wooden utensil.
- Do not clean with metal scouring pads. Pieces can break off the pad and touch electrical parts, creating a risk of electric shock.
- Keep crumb tray clean. See instructions for cleaning.
- CAUTION: Hot Surfaces.
- Do not use appliance for other than intended use.

SAVE THESE INSTRUCTIONS

CAUTION: This product is hot during operation and retains heat for some time after turning off. Always use oven mitts when handling hot materials and allow metal parts to cool before cleaning. Do not place anything on top of the Toaster while it is operating or while it is hot.

CAUTION: This appliance generates heat during use. Proper precautions must be taken to prevent the risk of burns, fires or other damage to persons or property.

CAUTION: A short power supply cord is provided to reduce the risk of personal injury resulting from becoming entangled in or tripping over a longer cord. Extension cords are available from local hardware stores and may be used if care is exercised in their use. If an extension cord is required, special care and caution is necessary. The cord must also be: (1) marked with an electrical rating of 125 V. and at least 10 A., 1250 W., and (2) arranged so that it will not drape over the countertop or tabletop where it can be pulled on by children or tripped over accidentally.

POLARIZED PLUG: This appliance has a polarized plug (one blade is wider than the other). As a safety feature to reduce the risk of electrical shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

ELECTRIC POWER: If the electric circuit is overloaded with other appliances, your Toaster may not operate properly. It should be operated on a separate electrical circuit from other appliances.

This product is for household use only.

Using Your 2-Slice Toaster

PRODUCT MAY VARY SLIGHTLY FROM ILLUSTRATIONS

Toasting Instructions

1. Plug cord into any 120 V ~ 60 Hz outlet. The unit may emit an odor and/or smoke during first few uses from oils used in manufacturing. This is normal for a new appliance.
2. Breads vary in density and moisture content, requiring different settings. Set toast color control to the color of toast desired. For first use, set control to “3” or medium setting. “LIGHT” or numbers “1” and “2” indicate light color setting ; “DARK” or numbers “4” and “5” indicate dark color setting.
3. Toast thin breads on the lighter toast color settings. Stale bread, thin bread or sweet bread products, such as tea cakes and fruit loaf, brown much more quickly than ordinary bread, so they should be toasted on the lighter settings.
4. Remove all protective wrappings from food before placing in bread slots.
5. When toasting more than one slice of bread, use slices of similar size, thickness and freshness. Avoid toasting torn slices of bread and broken pastries, which may get lodged in bread slots.
6. Insert bread or toaster food into bread slots and push down toast lever.

NOTE: Use either bread slot when toasting a single slice or portion. Use bread slices that fit freely into the slots. The self-adjusting bread guides hold food upright for uniform side-to-side toasting.

7. When toast is done, the toast lever with auto hi-lift will pop up and the power will shut off automatically.
8. Turn toast color control counter-clockwise past “LIGHT” setting to cancel the toasting cycle.

Removing Lodged Toast

If a piece of toast becomes lodged in the Toaster, unplug the Toaster and allow to cool. Press the toasting lever down. Turn the Toaster upside down, and shake the toast loose.

IMPORTANT: Never use a fork or sharp-edged utensil to remove toast. Doing so may damage the heating element or cause injury.

Convenience Foods Toasting

- Today there are many varieties of packaged convenience food available, both frozen and non-frozen (shelf pastry), that can be toasted in your Toaster.
- Do not toast toaster pastries with runny fillings or frosting.
- Remove all protective wrappings from food before placing in bread slots.
- Since toaster foods and individual tastes vary, it is difficult to recommend exact toast color control settings, however, after a little experimentation you will discover the best setting for your needs. You may also wish to refer to the heating instructions on food packaging.
- Some convenience foods may require a second toasting cycle.

Non-Frozen Shelf Pastry

- Move toast color control to the Pop Tarts® setting.
- For thicker convenience foods, it may be necessary to set control to “4” or “5” or “DARK” for a longer toasting cycle.
- Some pastries may require a second toasting cycle.
- Do not toast toaster pastries with runny fillings or frosting.

Frozen Foods

- Move the toast color control to a darker color setting. Due to variations in size and density, frozen items will require different settings. Moving the control clockwise to the “4” or “5” or “DARK” will provide a longer toasting cycle.
- Thawing frozen foods before toasting will help ensure that the inside of the food is heated and will prevent the outside from burning. Again, experimentation is the best way to accommodate individual tastes and food choices.
- Some frozen foods may require a second toasting cycle.

User Maintenance Instructions

This appliance requires little maintenance. It contains no user serviceable parts. Do not try to repair it yourself. Contact a qualified appliance repair technician if the product requires servicing.

Cleaning Instructions

CAUTION: Do not immerse in water or other liquid.

1. Unplug Toaster and allow to cool.
2. Wipe outside with soft, damp cloth. Polish with soft, dry cloth.
3. Open crumb tray in bottom of Toaster and brush out crumbs with pastry brush. Close crumb tray securely.

Storage Instructions

Unplug unit, allow to cool, and clean before storing. Store in its box in a clean, dry place. Never store it while it is hot or still plugged in. Never wrap cord tightly around the appliance. Do not put any stress on the cord where it enters the unit, as it could cause the cord to fray and break.

LIMITED ONE YEAR WARRANTY

Warranty: This Maxim product is warranted by Salton, Inc. to be free from defects in materials or workmanship for a period of (1) year from the original purchase date. This product warranty covers only the original consumer purchaser of the product.

Warranty Coverage: This warranty is void if the product has been damaged by accident in shipment, unreasonable use, misuse, neglect, improper service, commercial use, repairs by unauthorized personnel, normal wear and tear, improper assembly, installation or maintenance abuse or other causes not arising out of defects in materials or workmanship. This warranty is effective only if the product is purchased and operated in the USA, and does not extend to any units which have been used in violation of written instructions furnished with the product or to units which have been altered or modified or to damage to products or parts thereof which have had the serial number removed, altered, defaced or rendered illegible.

Implied Warranties: ANY IMPLIED WARRANTIES WHICH THE PURCHASER MAY HAVE ARE LIMITED IN DURATION TO ONE (1) YEAR FROM THE DATE OF PURCHASE. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

Warranty Performance: During the above one-year warranty period, a product with a defect will be either repaired or replaced with a reconditioned comparable model (at our option) when the product is returned to the Repair Center, or the purchase price refunded. The repaired or replacement product will be in warranty for the balance of the one-year warranty period and an additional one-month period. No charge will be made for such repair or replacement.

Service and Repair: Should the appliance malfunction, you should first call toll-free 1 (800) 233-9054 between the hours of 9:00 am and 5:00 pm Central Standard Time and ask for CONSUMER SERVICE stating that you are a consumer with a problem. Please refer to model number **MAXT2W** when you call.

In-Warranty Service (USA): For an appliance covered under the warranty period, no charge is made for service or postage. Call for return authorization (1 800 233-9054).

Out-of-Warranty Service: A flat rate charge by model is made for out-of-warranty service. Include \$8.00 (U.S.) for return shipping and handling. We will notify you by mail of the amount of the charge for service and require you to pay in advance for the repair or replacement.

For Products Purchased in the USA, but Used in Canada: You may return the product insured, packaged with sufficient protection, and postage and insurance prepaid to the USA address listed below. Please note that all customs duty / brokerage fees, if any, must be paid by you and we will require you to pay the cost of customs duty / brokerage fees to us in advance of our performing any service.

Risk During Shipment: We cannot assume responsibility for loss or damage during incoming shipment. For your protection, carefully package the product for shipment and insure it with the carrier. Be sure to enclose the following items with your appliance: any accessories related to your problem, your full return address and daytime phone number, a note describing the problem you experienced, a copy of your sales receipt or other proof of purchase to determine warranty status. C.O.D. shipments cannot be accepted.

To return the appliance, ship to:

Attn: Repair Center Salton, Inc.
708 South Missouri Street
Macon, MO 63552

To contact us, please write to, call, or email:

Limitation of Remedies: No representative or person is authorized to assume for Salton, Inc. any other liability in connection with the sale of our products. There shall be no claims for defects or failure of performance or product failure under any theory of tort, contract or commercial law including, but not limited to negligence, gross negligence, strict liability, breach of warranty and breach of contract. Repair, replacement or refund shall be the sole remedy of the purchaser under this warranty, and in no event shall Salton be liable for any incidental or consequential damages, losses or expenses. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Legal Rights: This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
